FIELD OF ACTIVITY

The Association encompasses all aspects of bridge maintenance, safety, and management. Specifically, it deals with: bridge repair and rehabilitation issues; bridge management systems; needs of bridge owners; financial planning, whole life costing and investment for the future; bridge related safety and risk issues and economic and other implications.

MISSION

The mission of the Association is to become the premier international organization for the advancement of the state-of-the-art in the fields of bridge maintenance, safety and management.

OBJECTIVE

The objective of the Association is to promote international cooperation in the fields of bridge maintenance, safety and management for the purpose of enhancing the welfare of society.

ACTIVITIES

In order to fulfil its mission and objective, the Association will organize congresses, conferences, symposia, workshops, seminars, and short courses on the related topics. The Association intends to cooperate with other organizations including AASHTO, ACI, AISC, ASCE, CERRA, ESRA, FIB, IABSE, IALCCE, IASSAR, ICE, IFIP, JCSS, PIARC, and RILEM having interest in bridge maintenance, safety and management.

TECHNICAL COMMITTEES

Bridge Health Monitoring

Manage bridge operations, security and maintenance within a single-platform and under an integrated asset-management umbrella, effectively and optimally. Reach a consensus on nomenclature, on the structuring of the application scenarios, on the classification of the application technologies and integration needs, and most importantly, on the minimum quality requirements for meaningful applications.

Bridge Management

Concerned with methods and technologies for selection and evaluation of cost-effective, programmatic optimal strategies for comprehensive management of bridges and structures, taking into account life cycle costs and functional requirements such as safety, mobility, and traffic congestion.

STRUCTURE AND INFRASTRUCTURE ENGINEERING

Maintenance, Management, Life-Cycle Design and Performance

STRUCTURE AND INFRASTRUCTURE ENGINEERING: Maintenance, Management and Life-Cycle Design and Performance is an international peer-reviewed scientific journal (included in the ISI Science Citation Index Expanded, 2019 Impact Factor = 2.62). This journal is dedicated to recent advances in the field of life-cycle performance of a wide range of structures and infrastructures, such as: buildings, bridges, dams, underground constructions, offshore platforms, pipelines, naval vessels, ocean structures, nuclear power plants, airplanes and other types of structures including aerospace and automotive structures.

STRUCTURE AND INFRASTRUCTURE ENGINEERING is endorsed by IABMAS and IABMAS members are offered a substantial discount subscription rate. Subscriptions are for the private use of the individual accredited IABMAS Members and are not placed in a library nor in any way used to substitute for an existing or potential library (full) subscription.

MEMBERSHIP INFORMATION

Membership may be either individual or collective. An individual member shall be a person who is involved in the areas of activity covered by the Association, possesses appropriate knowledge and who is willing to support the mission and objective of the Association. A collective member shall be organizations having technical or scientific interest in the Association, such as highway agencies, state departments of transportation, transportation institutes, universities, bridge owners and operators, road departments, qualified firms and libraries.

To apply to become a member of IABMAS, please visit the IABMAS homepage at <http://www.iabmas.org/join.html>

NATIONAL GROUPS OF IABMAS

To better coordinate its activities, the International Association for Bridge Maintenance and Safety (IABMAS) provides the possibility of establishing national groups. At present (March 2021) there are eleven national groups: Australia, Brazil, Chile, China, Italy, Japan, Korea, Portugal, Sri Lanka, Turkey and USA.

IABMAS Australia Group

The aim of IABMAS Australia is to promote, coordinate and facilitate knowledge and information sharing for research, development and practice in the area of bridge maintenance, safety and management in Australia.

Information

Date of foundation: October 2014
Webpage: <http://www.iabmas-aust.org>
Application Form: <http://www.iabmas-aust.org/join.html>
Email: nigel.powers@roads.vic.gov.au

IABMAS Brazil Group

Besides promoting conferences, symposia and workshops, the IABMAS Brazil Group aims to disseminate knowledge in the area of maintenance and structural safety of bridges in accordance with the objectives of IABMAS.

Information

Date of foundation: September 2013
Webpage: <http://www.iabmas-br.org>
Application Form: <http://www.iabmas-br.org/membros>
Contact: <http://www.iabmas-br.org/contato>

IABMAS Chile Group

The IABMAS Chile Group intends to build a stronger collaboration, to share knowledge and to contribute to the betterment of Chilean infrastructure in the field of design, construction and maintenance on bridge engineering.

Information

Date of foundation: October 2017
